EDUCATION

2021 - Present	B.Tech (CSE) at Netaji Subhas University of Technology	8.095 CGPA
2021	Class 12th CBSE Board from Arwachin International School	97.6 %
2019	Class 10th CBSE Board from Arwachin International School	96 %

COURSEWORK

Object Oriented Programming — Data Structures and Algorithms — Design and Analysis of Algorithms
Operating System — Database Management System — Web Development

INTERNSHIPS

Doubt Support Mentor, AccioJob July 2022 - September 2022

- AccioJob provides mentorship to students to get placements in IT sector companies.
- I joined the organisation as a remote intern to help students clear their doubts during their initial coding journey by assisting them through Discord.

Entry Level Technical Interviewer, AccioJob September 2022 - present

- AccioJob runs a scholarship program for students whereby it rewards students based on an online coding test followed by an online interview.
- I was responsible to interview students on coding fundamentals i.e. programming language basics, logic building, implementation and communication skills.

PROJECTS

Todo List [GitHub Repository](#)

- An Android Application built using **Kotlin** on **Android Studio** IDE.
- Users can register on the app using their email & password to save there daily tasks and cross them out when done.
- The user **authentication** is handled using **Firebase Authorisation** using email and password.
- User data is stored safely in **Firebase Realtime Database** from where it can be accessed on any Android device with an active Internet connection.
- User may reset the password using his/her email in case he/she forgets the password.

ACHIEVEMENTS

- NPTEL Topper (Top 1%) in [Ethics in Engineering Practice](#)
- NPTEL Topper (Top 5%) in [Foundation Course in Managerial Economics](#)

SKILLS

- **Languages:** C++, Python, SQL
- **Web Development:** HTML, CSS
- **Android Development:** Kotlin
- **Technical:** Data Structures and Algorithms, DBMS, Operating System
